

urho.

Documentation

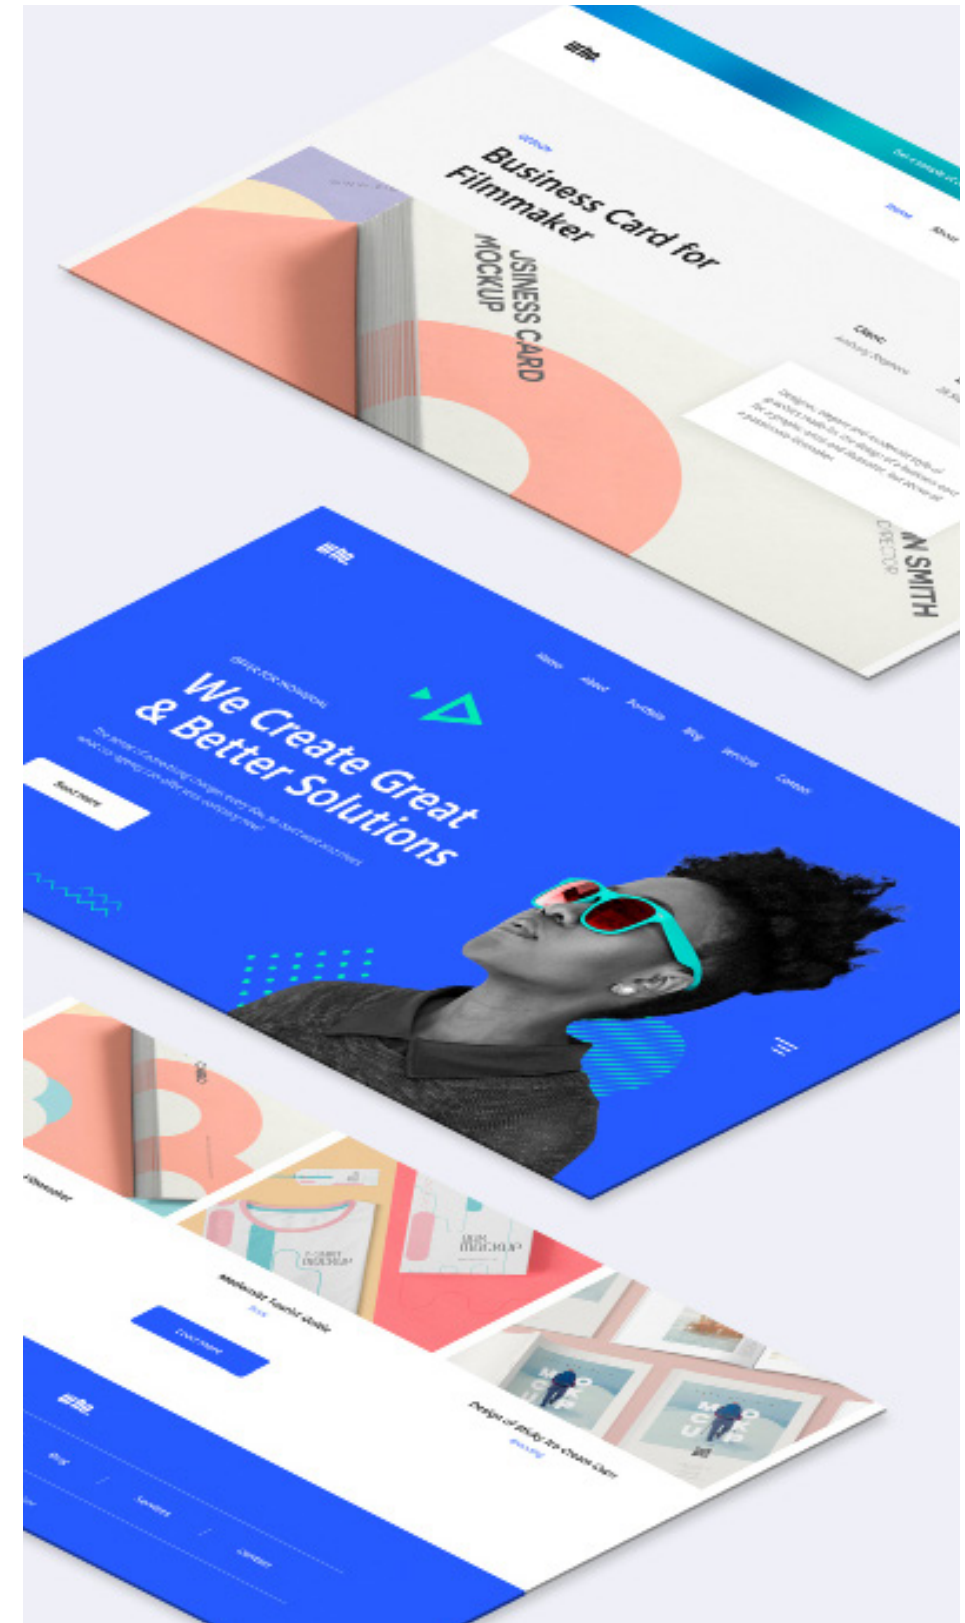

Welcome to **Urho**.

Urho is a template for a creative agency, graphic studio or other related to the creative field designed in Figma.

If you want to distinguish your brand that creates unique graphic creations or is a startup in the creative industry, this template is for you.

The wide grid and the components used with the use of autolayout provide many options for editing this template.

Figma's free software gives you the ability to edit wherever you are. Additional free Google Fonts used, which you can change and edit, give unlimited possibilities.

Let's get started!

Go to [Figma.com](https://figma.com) and create your account or log in to the existing one.

After creating an account or logging in, import the .fig file, which you will find in the „Figma Template“ folder.

General Customization

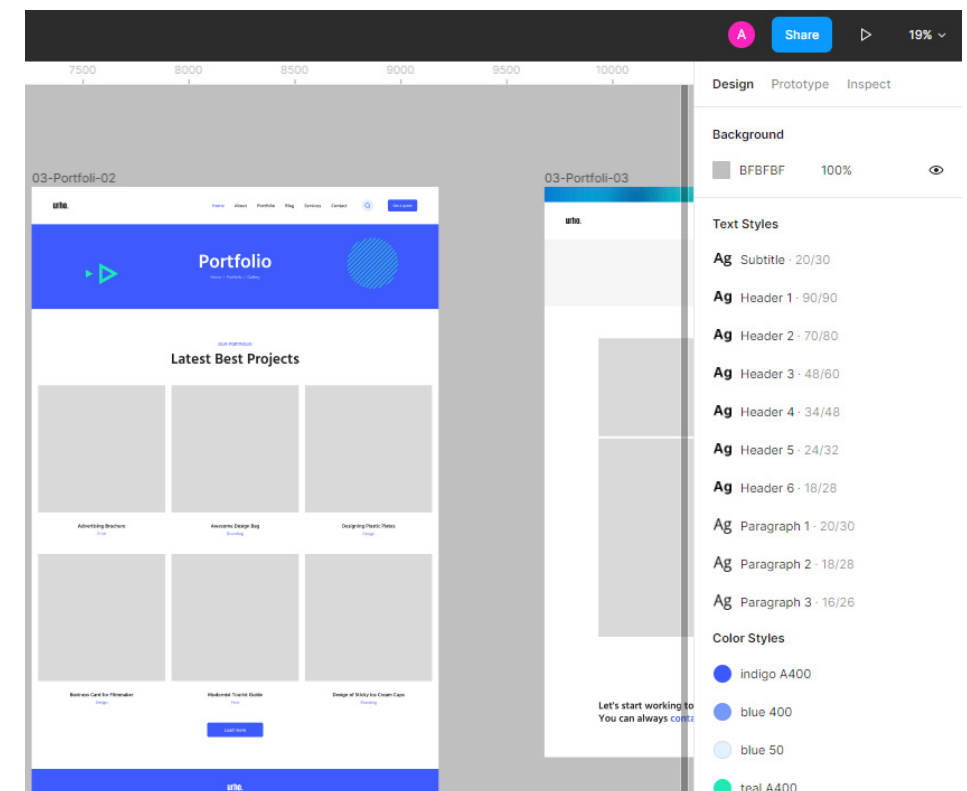

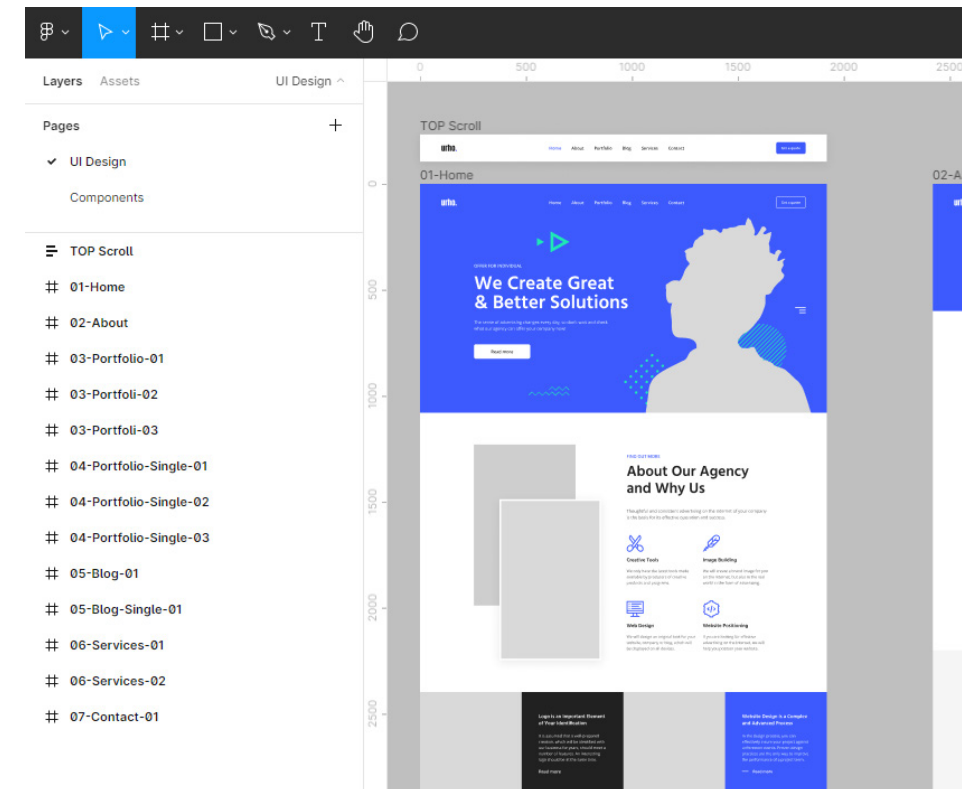

After opening the file in Figma, you no longer need to download and install additional fonts. All fonts are available in the application.

On the left side of the application you will find all the layers and components that have been created for this template.

On the right side you will find the styles and effects you have created for the template.

Learn more about layers in the Figma app:

<https://help.figma.com/hc/en-us/articles/360039831974-View-layers-and-pages-in-the-left-sidebar>

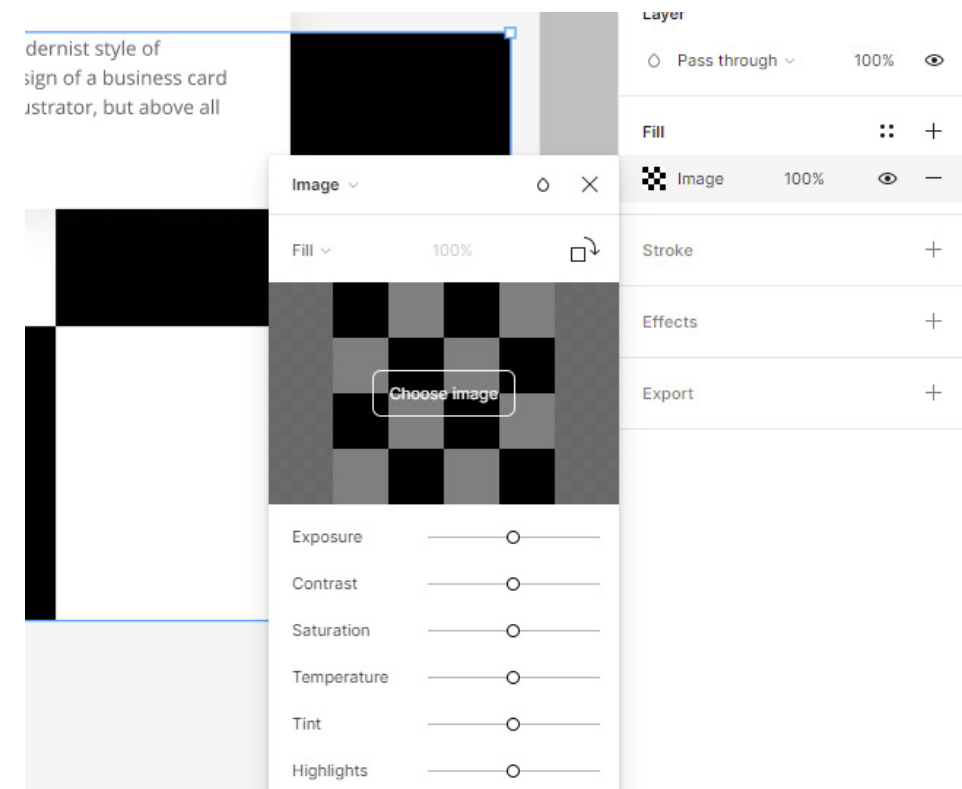

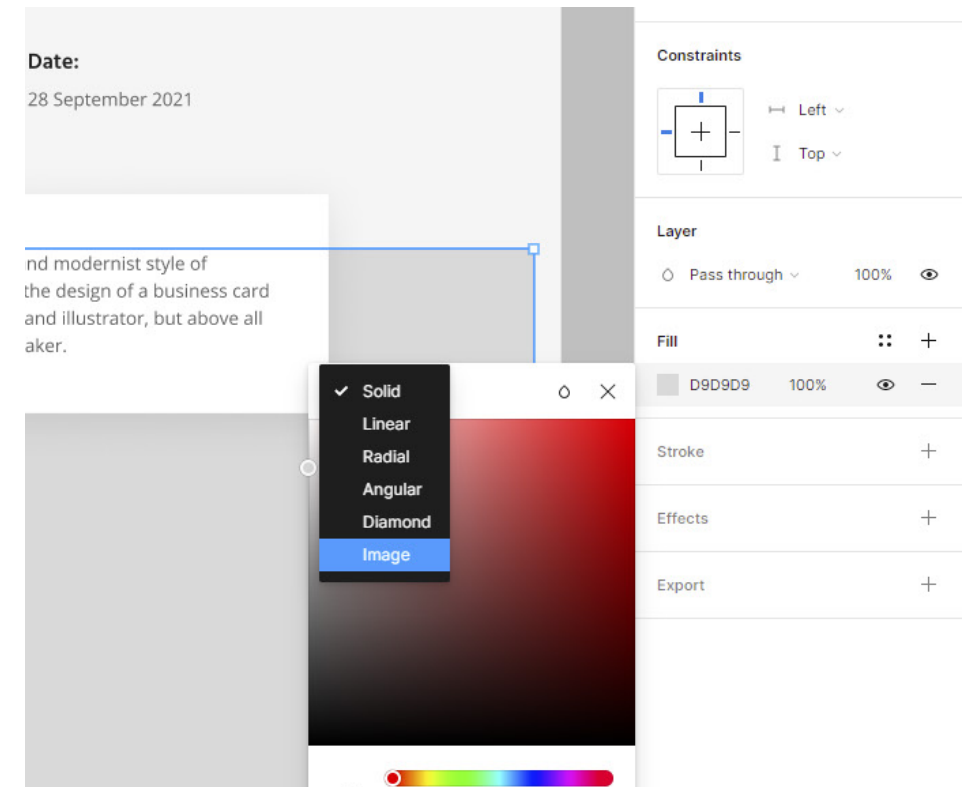

Add Images

To place an image in the template, select the gray rectangle labeled „placeholder“, and then select the „image“ option from the „fill“ panel.

Then select the „choose image“ option and choose from your hard drive the image you want to include in the template.

More information on adding and modifying images can be found on the application website:

<https://help.figma.com/hc/en-us/articles/360040028034-Add-images-to-design-files>

Typography and Colors

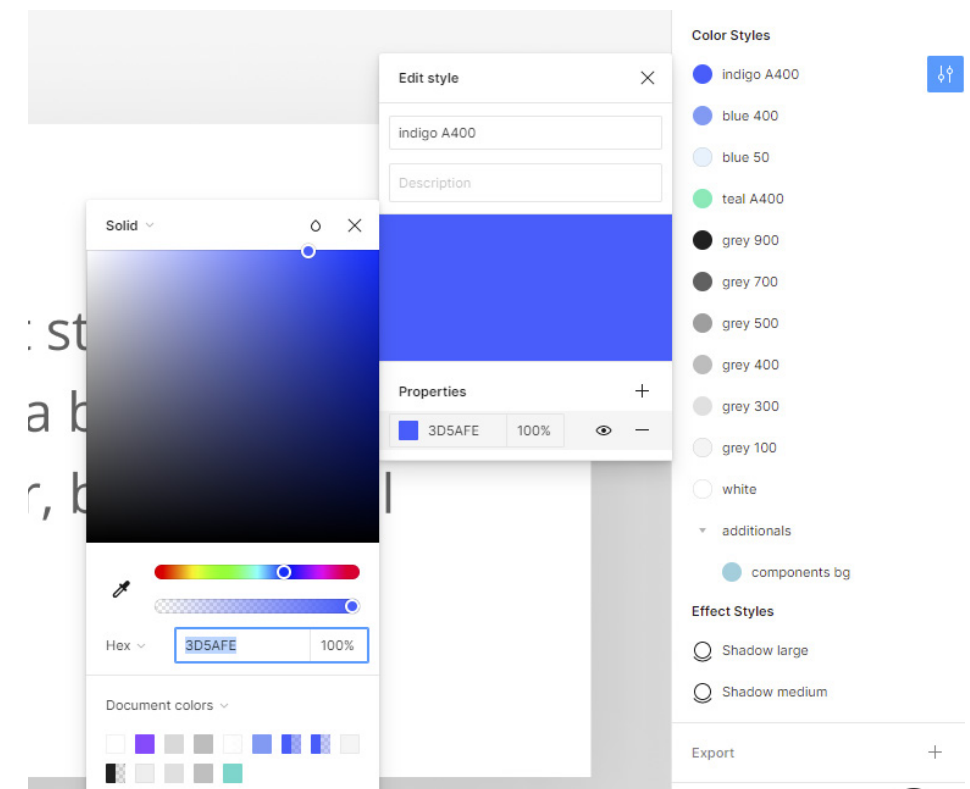

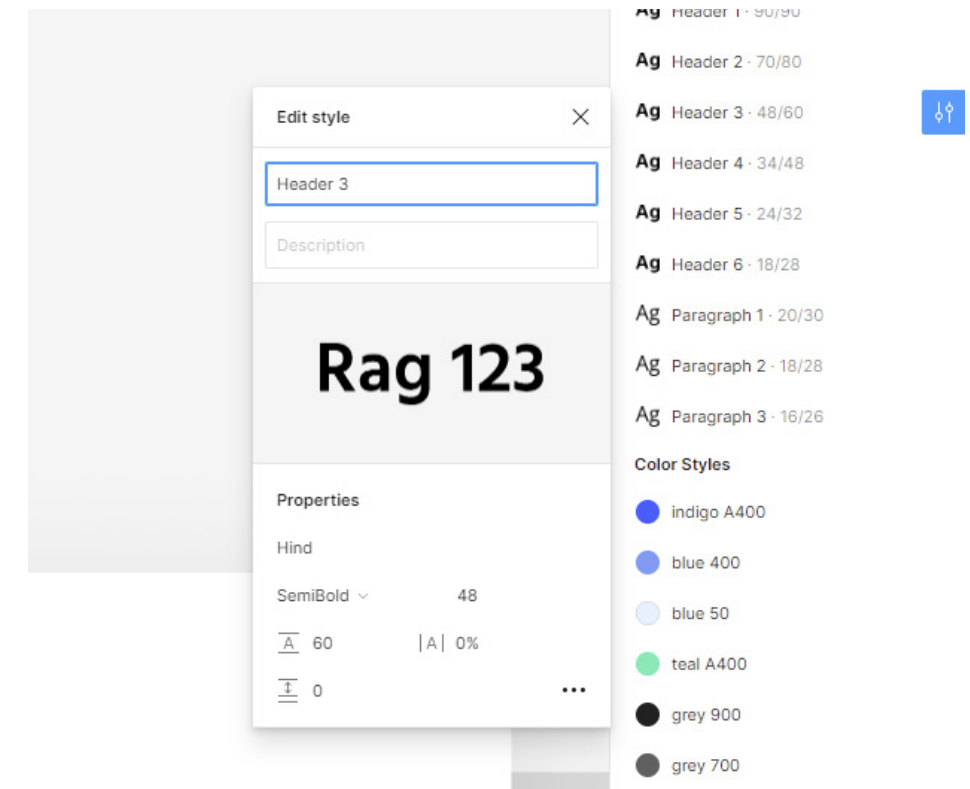

The template has styles for typography and layout colors.

All headers have the name „Header ...“, while the colors have a special marking used in [Google Material Design](#).

To edit the text or color, click on the customization icon and adjust the appropriate font or text size or color of the template.

More information on text styles and colors can be found on the application website:
